

Hepatitis C: Test It. Find It. Fight It.

20 minutes to know
if you have Hep C

More Americans die from Hepatitis C than HIV. Hep C infection is high among injection drug users, blood or organ recipients before 1992, and Baby Boomers (born 1945-1965).

If you fall into one of these categories, get tested in 20 minutes and together we can fight Hep C.
